FOCUS ON

Plastic Rail NON può essere impiegato con listoni di legno nè con ceramiche di dimensioni inferiori a 40 cm di larghezza. Plastic Rail NON è un elemento strutturale ma lega i supporti e stabilizza la pavimentazione. Per la corretta posa in opera della sottostruttura con Plastic Rail è TASSATIVO attenersi agli schemi di posa rappresentati in questa pagina.

Plastic Rail CANNOT be used with wooden planks or ceramic tiles less than 40 cm wide. Plastic Rail is NOT a structural element but binds the supports and stabilizes the flooring. For the correct installation of the substructure with Plastic Rail it is ESSENTIAL to follow the installation diagrams shown on this page.
